OIL FIELD SERVICES LTD

COMPANY
BROCHURE

CORPORATE Overview

ROMSON Oil Field Services LTD is an indigenous oil and gas servicing firm with over 25 years in the Nigerian oil and gas industry. We are dedicated to delivering exceptional support and innovative solutions with expertise extending across onshore, offshore and deep-water environments.

This enables us to meet the diverse needs of our esteemed customers. From customized services to cutting-edge solutions, we pride ourselves in providing tailored approaches that drive efficiency, safety and operational excellence.

Romson has established its reputation as a provider of chemical and engineered solutions tailored to the specific need of the oil and gas industry with its network of strategic partners.

Our SERVICES

01

Oilfield Chemicals

Wide portfolio of drilling and production chemicals.

02

Hardware

Advanced lifting, rigging and handling equipment.

03

Subsea and Innovative Technologies

Inspection and repairs

About Us

Founded in 1989, Romson is a member of TGI Group and has emerged as an entity within Nigeria's oilfield services sector. Our core focus lies in fabrication and manufacturing of advanced lifting, rigging and handling equipment, asset inspection, maintenance and repair (IMR) and an extensive range of oilfield chemicals.

At Romson, we take great pride in fostering strategic partnerships and cultivating an in-depth understanding of the operating environment and local communities. These insights enable us to provide customized support and pioneering solutions that effectively address the diverse requirements which cover the onshore, offshore, and deep-water domains.

Romson has completed several projects for major international and indigenous oil & gas companies in Nigeria. We are committed to growth, enhancing expertise and adapting to industry demands to stay ahead in the oil and gas sector.

MISSION

To consistently proffer innovative solutions and exceptional support to meet our clients onshore, offshore, and deep-water needs.

VISION

To continue to be a reputable indigenous oilfield servicing company for the Nigerian energy industry and civil contractors.

03

01

Oilfield Chemicals

Romson Oilfield Chemicals, in co-operation with our technical partners Vink Chemicals, Ashland and REP Chemicals, engages in the formulation, blending and delivery of specialty and production chemicals to our clients in the oil and gas industry. We also conduct chemical treatment, performance evaluation, monitoring and tests at clients' sites to ascertain the performance of our products.

Services

- Delivery of production chemicals and total chemical management services
- Product selection and formulation at field as per field requirements
- Evaluation and optimization of different chemical injection programs
- Troubleshooting of chemical treatment failures
- Delivery of drilling and cementing chemicals
- Chemical storage, handling and decanting services
- Supply of oil and gas laboratory equipment & installation
- Desludging of production and storage tanks
- Technical manpower outsourcing services

In-Country Blending Plant

We have an in-country blending plant where we exclusively blend formulated products along with a robust warehouse and logistics architecture.

Production Facilities

Technical Support Services

2 QA Laboratories

Our specialists and technicians have the expertise and tools to conduct full product qualification and monitoring programs in client's location and in our laboratory.

Cutting Edge Technology

We operate in an industry where new technology is evolving. As a result, our success depends on our ability to develop and introduce new technologies and products for our customers.

Research and Product Development

Our Chemical Range

We deliver an entire range of specialty, production, and drilling chemicals to our clients

- Demulsifier
- Deoiler
- Paraffin dispersant
- Pour point dispersant
- Wax inhibitor
- Asphaltene inhibitor
- Drag reducer
- Corrosion inhibitor
- BiocideScale inhibitor
- Oxygen scavenger
- H₂S scavenger
- Surfactant
- Drilling and cementing fluid additives

02

Hardware

Romson partners with global technology leaders to provide a comprehensive portfolio of lifting and rigging accessories, synthetic ropes and net assemblies, crane and material handling devices, steel wire ropes, and construction equipment, as well as wire and fibre ropes for high-demand applications across the oil and gas industry.

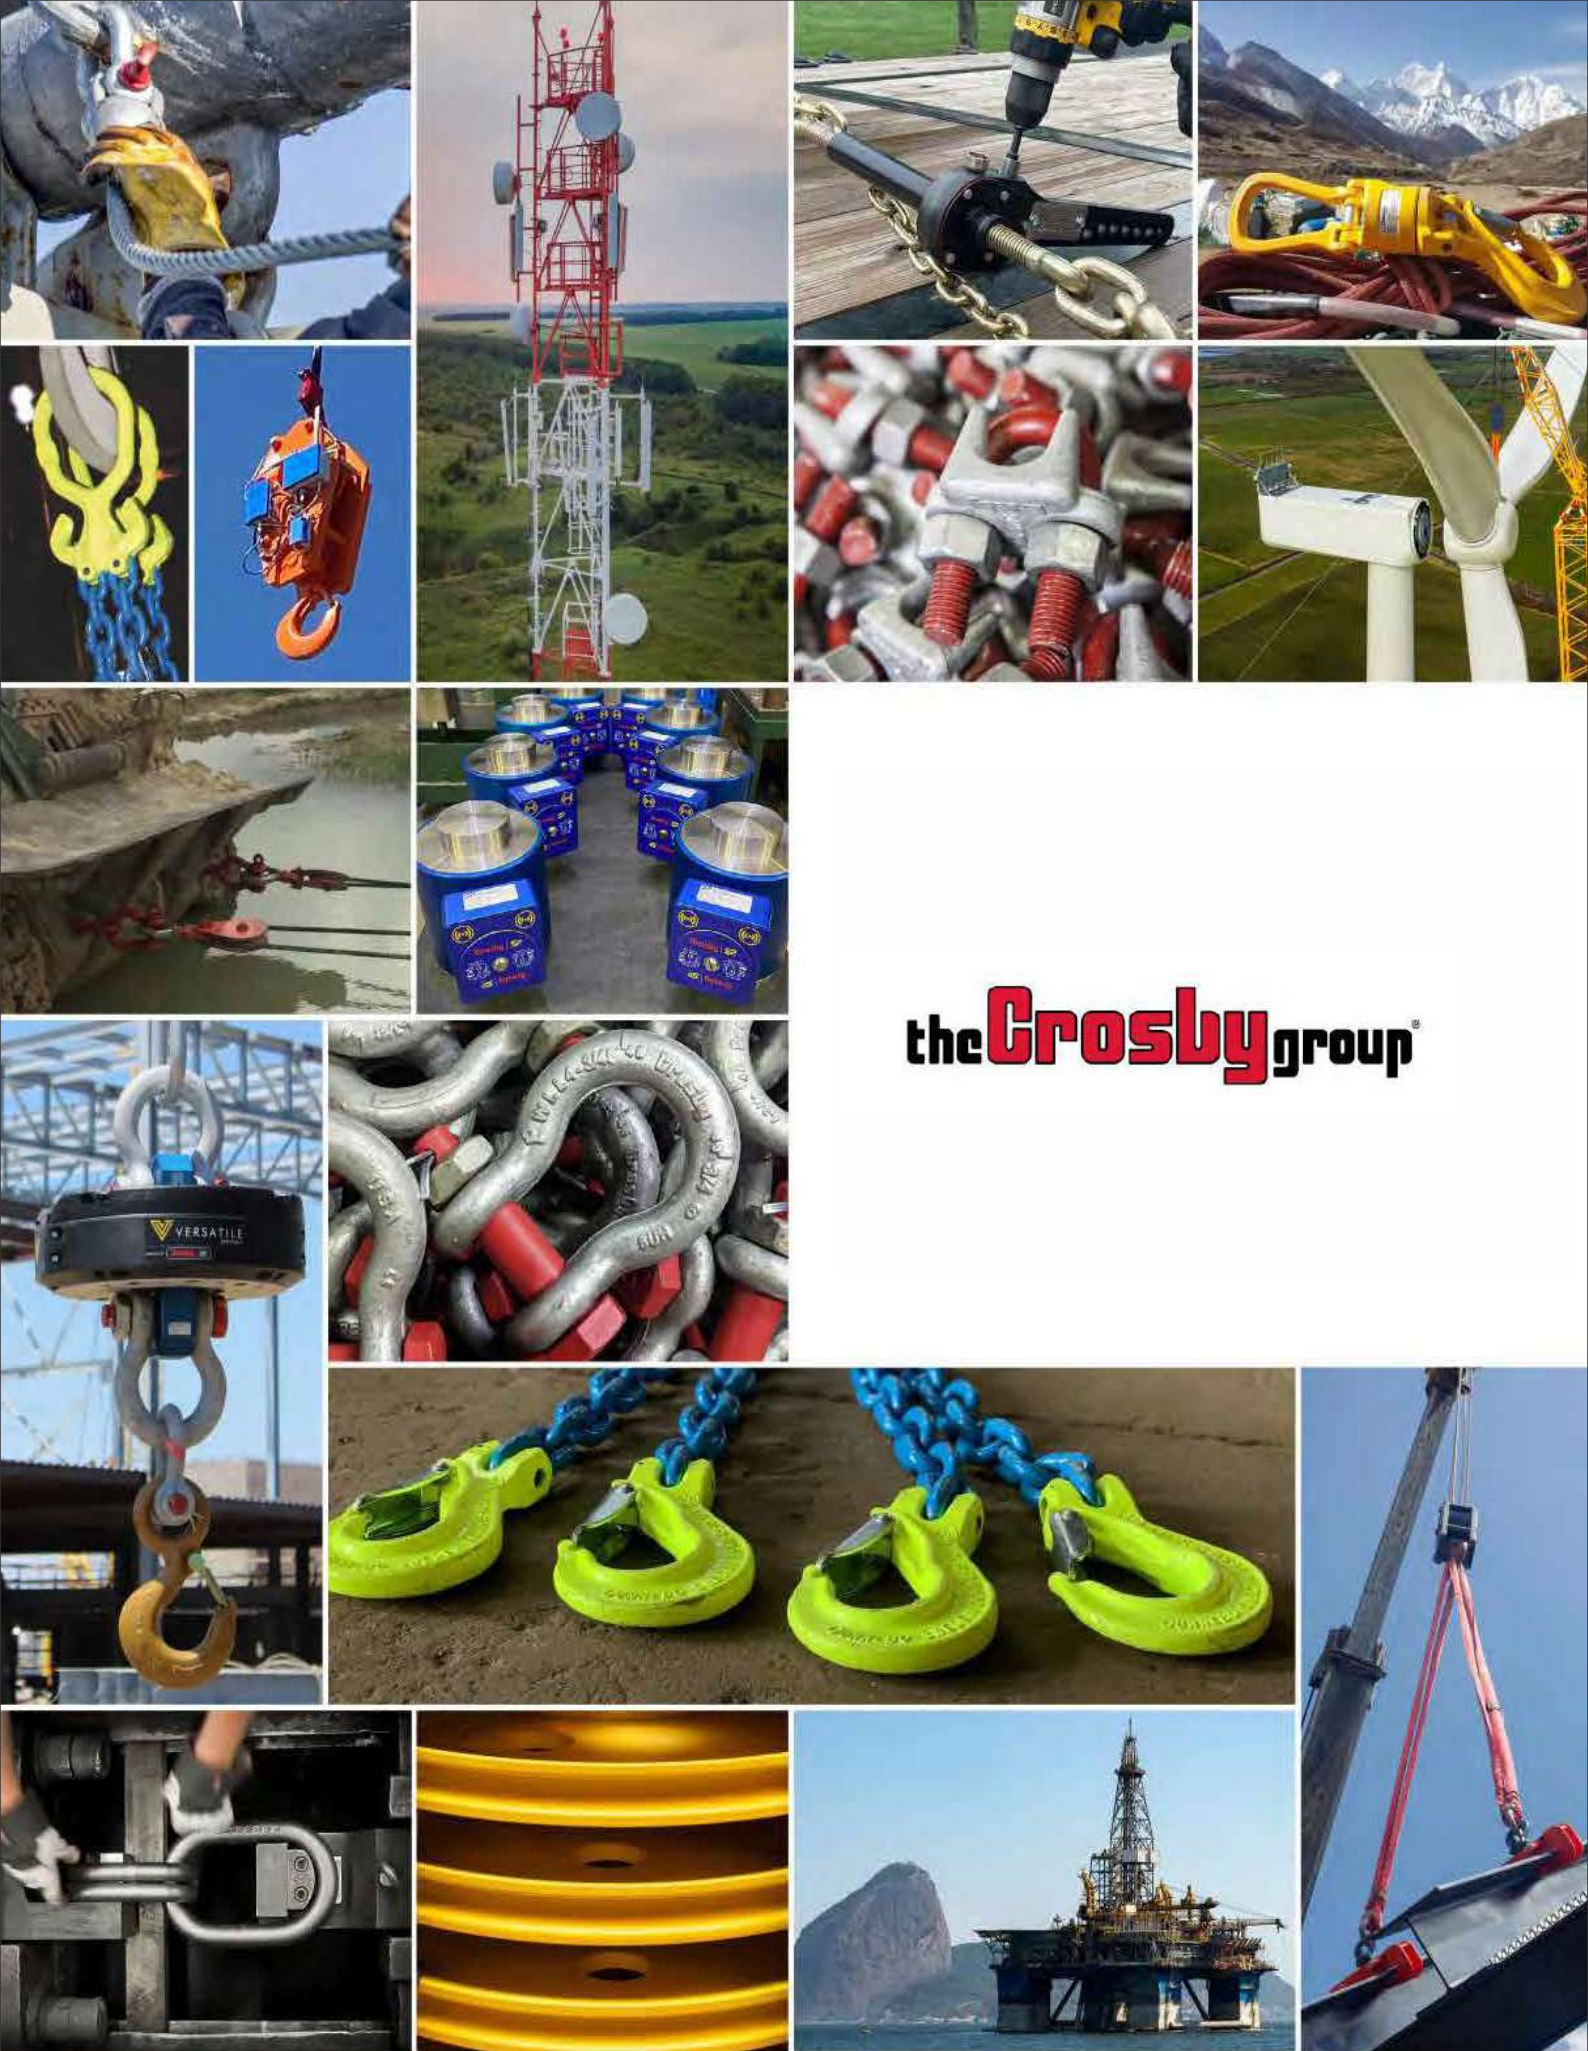

Hardware Capabilities Highlights

- The biggest wire rope sling producers in the country with DNV 2.7-1 certification
- Suppliers of all sizes of wire ropes for drill line, towline, riser, tensioner, mooring, mining, elevator, fishing and general engineering
- Sub-assembly factory in Nigeria for Yale lifting gears
- Suppliers of all sizes of non-rotating crane ropes
- Owner of a wire rope test facility up to 150T
- Producers of stretchers and mooring ropes with spliced eye
- Producers of open/closed spelter socket and mooring socketed wire ropes of all sizes
- Swaging capacity up to 77 mm, including flemish eye, in the country
- Suppliers of SPM mooring solutions for FPSOs and FSOs
- Producers of all configurations of chain slings

Technical Support Services

- **LIFTING & RIGGING ACCESSORIES**
Romson has an exclusive partnership with Bridon and Yale, leading manufacturers of lifting and rigging accessories.
- **SYNTHETIC ROPES & NET ASSEMBLY**
We represent Garware as its exclusive partner to supply all-wall polypropylene, nylon ropes, nylon poly-propylene, maxi gold, maxi flex, dyneema ropes, webbing net, cargo net, sports net and SPM hawsers.
- **CRANE & MATERIAL HANDLING**
Our exclusivity with top global manufacturers allows us to supply polyester webbing slings, full body harness, cargo lashing and fittings, lifting gear accessories and equipment. In Nigeria we have a sub-assembly factory for blocks and hoist and a cable puller.
- **EQUIPMENT WE SUPPLY**
Cranes, forklifts, pallet handlers, festooned cable systems, air-driven trolleys, beam clamps, electric and manual chain hoists.
- **ACCESSORIES**
Wire-rope end fittings, shackles, sling-saver fittings, hooks and swivels, rigging accessories, chains, marine blocks, lifting clamps, chain blocks, lever hoist, yale trac wire puller, and hydraulic jacks.
- **STEEL WIRE ROPES & CONSTRUCTION**
We manufacture steel wire rope slings from size 3 mm to 77 mm up to five legs. We have the capacity to swage flemish eyes up to 77 mm.
- **WIRE & FIBRE ROPES**
We produce and supply riser tension lines, elevators, general engineering wires, crane wires, drill lines, towing lines, mining, fibre ropes and complete mooring systems.
- **COMPLETE AUTOMOTIVE & INDUSTRIAL PRODUCTS – CRC**
We represent CRC for the supply and delivery of complete automotive and industrial products in Nigeria. Products include: battery, brake maintenance kits, cleaners, degreasers, coatings, corrosion inhibitors, electrical maintenance kits, fuel additives, grease, leak stoppers, leather care kits, lubricants, protectants, specialty oils and tapping/cutting fluids.
- **HARDWARE MAINTENANCE & INSTRUMENTATION SERVICES**
To ensure the optimal performance and operational safety of all supplied lifting, rigging, and material handling hardware, we provide dedicated Electrical Maintenance, Mechanical Maintenance, and Instrumentation services.

03

Subsea and Innovative Technologies

Romson's focus is to deliver tailor-made innovative solutions to our clients. Our subsea & innovative technologies department provides the following:

- Metal protection and corrosion control
- Inspection and asset integrity solutions

Metal Protection - Oxifree

ROMSON deploys innovative metal protection technologies that help to extend the life span of assets by 10 years and prevent corrosion in harsh environments. Romson has an exclusive partnership with the OEMs for our metal protection technologies.

Oxifree Advantages

- Arrests all types of corrosion and contamination
- Protects complex components
- Easy to strip when maintenance is required
- Savings on both CAPEX & OPEX
- Reduces equipment and process down time

Metal Protection – Trenton

The Wax-Tape® brand anticorrosion wrap system includes a selection of primers, wraps and outer wraps that work together to protect your resources.

Trenton Wax Tape Advantages

- Applicable over wet surfaces
- Conformable to irregular fittings
- Inert and not biodegradable
- Effective at continuous operating temperatures of up to 230°F (110°C)

Inspection and Asset Integrity Solutions

Romson, alongside our strategic alliance partner IEV, provides personnel and equipment for basic ROV CVI and sonar-based inspection. Our array of advanced inspection technologies provides cost-effective solutions for our clients. Listed are some of the services that can be undertaken using our specialized equipment and manpower:

- Subsea and advanced inspection services
- Underwater inspection in-lieu of dry-docking (UWILD)
- Full internal ballast tank inspection
- Platform inspections
- Hull and mooring survey
- Mini ROV for inspection
- Corrosion mapping
- Tank inspection
- Mooring survey
- ROV for subsea inspection

NDT Services and Fabric Maintenance

We are your trusted partner in ensuring the safe and reliable operation of your infrastructure.

Our experienced technicians and state-of-the-art equipment provide efficient and effective solutions that will guarantee optimal performance in our client's operations. We offer services ranging from advanced NDT tests and inspection of assets, fabric maintenance and repairs.

- Composite wraps
- Ultrasonic testing for line pipes
- Sand blasting and painting
- Emergency response
- Non-Destructive Testing (NDT)

Quality, Health, Safety & Environment

Safety is not a priority at ROMSON
it is a core value embedded in every operation

0

Lost Time Injuries
Zero LTIs recorded
across all operations

100%

PPE Compliance
Mandatory for all
personnel on every site
and platform

100%

Incident Reporting
Full near-miss and
hazard reporting
culture enforced

Standards & Compliance

- ISO 9001 Quality Management System
- ISO 14001 Environmental Management System
- ISO 45001 Occupational Health & Safety
- DNV 2.7-1 Offshore Containers & Lifting Equipment
- NACE / SSPC Corrosion control and coating standards
- Client-specific HSE bridging documents on all projects

Industry Memberships & Affiliations

- LEAA Lifting Equipment Association Engineers
- OCTAN Oil & Gas Trainers of Nigeria Association
- DPR / NUPRC Fully licensed oilfield operator services

PEOPLE

Every worker goes home safe. Pre-task risk assessments, Toolbox Talks and PTW on every job.

PROCESS

Documented SOPs, JSAs, and Method Statements for all operations. Continuous process hazard reviews.

ENVIRONMENT

Full EIA compliance. Waste minimisation, spill prevention, and carbon footprint tracking.

ASSETS

Certified equipment only. Regular inspection regimes, preventive maintenance and load-test records.

OUR COMMITMENT

No project is too urgent to execute safely.
HSE compliance is non-negotiable at Romson – onshore, offshore, or deepwater.

ROMSON ESG Strategy

ROMSON continues to evaluate its sustainability and societal impact as a company. It is an increasingly important consideration for businesses and investors seeking to make a positive difference, and our ambition is to develop an ecosystem that stimulates the debate on sustainability and promotes responsible behaviour, with positive impact on our environment.

ESG PILLARS

The Importance of Aligning Romson Business With ESG

- Increasing reputation & trust (internal and external stakeholders)
- Competitive advantage
- Risk mitigation
- Meeting investors' demand, as it is an important criterion for investment decisions

Current Romson Initiatives

Environment:

- Full EIA conducted and remedial actions carried out in new Blending Plant facility
- Provision of battery-powered forklifts against diesel-powered in facility
- Relative diversification into green businesses (Corroban & LDAR)
- Sustainable water management & energy efficiency in facility

Society:

- HMO & insurance provision for staff (direct & contract)
- Community engagement in QIT Eket with direct jobs and training
- Salary reviews and incentives on performance
- Modelling a simple and agile

organization

- Training to build skill and effective workforce

Governance:

- Quarterly and annual finance audits
- Strong corporate governance (finance and contract controls)
- Stakeholder management (clients & staff) · IT & cyber security governance (TGI)
- Monthly carbon footprint tracking & reporting

ASSESS → ALIGN → IMPLEMENT

Assess:

Strategic Initiatives

SBU Initiatives

External general initiatives

Align:

Implement:

- Green-focused investments (e.g. battery-powered forklifts)
- Transition to solar energy for LV requirements
- Focus on green chemicals business
- Leak detection and repair for methane reduction
- Employee welfare and motivation

Why Choose ROMSON

25+ years of indigenous excellence

Onshore · Offshore · Deepwater

3

Strategic Facilities

Admin HQ in Lagos · Operational base in Port Harcourt for rapid project mobilisation · In-country blending plant in Ogun State for chemical formulation and production.

2

In-Country QA Laboratories

Dedicated product testing and quality assurance laboratories in Port Harcourt and Ogun State – ensuring every chemical meets field specification before deployment.

20+

Exclusive OEM Partnerships

Authorised exclusive partner for Oxifree, Trenton Wax Tape®, Bridon, Yale, Garware, Vink Chemicals, Ashland, and REP Chemicals – direct access to leading global technologies.

150T

Wire Rope Test Facility

Nigeria's largest wire rope test facility rated to 150 tonnes. Biggest wire rope sling producer in the country with DNV 2.7-1 certification and swaging capacity up to 77 mm including flemish eye.

Yale

Yale Lifting Gear Sub-Assembly Factory

The only in-country sub-assembly factory for Yale lifting gears, supplying all sizes of non-rotating crane ropes for oil & gas and construction applications.

2

In-Country Corrosion Protection Stock

Ready-to-deploy inventory of Oxifree TM198 and Trenton Wax Tape® held in Lagos and Port Harcourt – enabling immediate mobilisation with zero lead-time.

End-To-End

Complete In-Country Service Chain

One-stop indigenous capability, from chemical blending and corrosion protection to lifting gear fabrication and wire rope production.

25+

Years of Proven Track Record

Over 25 years executing projects for TotalEnergies, SNEPCO, Chevron Nigeria, NNPC, and Seplat Energy – onshore, offshore, and deepwater across Nigeria.
